Project Work

Portfolio- (ReactJS, Tailwind CSS, JavaScript, Render Deployment)– [Live Demo](#)

- Developed a **fully responsive portfolio website** showcasing projects, skills, and contact information.
- Built with **React.js** to ensure **component-based development and scalability**.
- Added **email contact form** using **Email JS** for real-time communication.
- Ensured **performance optimization** with lazy loading and efficient state management.
- Deployed the website on **Render** for seamless accessibility.

Read-Haven- (ReactJS, Express JS, MongoDB, NodeJS, Render Deployment) – [Live Demo](#)

- Spearheaded the development of a dynamic online bookstore using the MERN Stack (ReactJS, NodeJS, Express JS, MongoDB).
- Developed and deployed RESTful APIs for user registration and login and improved authentication process.
