Education

Chandigarh University (CGPA: 8.16)

Master of Computer Applications

August 2023 – June 2025

Mohali, Punjab

Lovely Professional University (CGPA: 8.03)

Bachelor of Computer Applications

August 2020 – June 2023

Jalandhar, Punjab

Projects

Talko / React, Tailwind CSS, JavaScript, JWT, Socket.io, MongoDB

March 2025 - Ongoing

- Engineered a real-time chat system using Socket.io, ensuring 99% message delivery reliability with an average latency of ~50ms.
- Deployed indexed MongoDB queries, improving user lookup efficiency by ~40%, reducing redundant queries during authentication.
- Designed conversation-based message storage model allowing O(1) retrieval for active users.
- Optimized authentication with bcrypt.js and JWT, securing user data while enabling 99% successful login attempts.

File-Share / React, Express.js, Node.js, AWS S3

September 2024 – October 2024

- Developed a secure file-sharing web application using Node.js and Express.js, reducing server load by 60% through pre-signed URLs.
- Integrated AWS S3 for cloud storage, supporting file uploads up to 5 GB with an average upload speed under 300ms.
- Built a 60-second expiring pre-signed URLs system, ensuring 100% secure and time-restricted access to shared files.

Read-Haven / React, MongoDB, Node.js, Express.js

August 2024 – September 2024

- Collaborated in a 3-member team to develop an interactive online bookstore using the MERN stack, enabling users to explore and download books.
- Implemented secure authentication using bcrypt.js to hash passwords with 10 salt rounds, ensuring 100% encrypted user credentials.
- Optimized user lookup queries, reducing database query execution time by ~40% for login and signup operations.

Technical Skills

Languages: Java, JavaScript, HTML, CSS

Frontend: React, Tailwind CSS

Backend: Node.js, Express.js

API Testing: Postman

Tools: VS Code, IntelliJ IDEA

Deployment: Netlify, Render

Version Control: Git, GitHub

Computer Science Fundamentals: Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Development Lifecycle (SDLC)

Certifications

- Problem Solving (Basic) by HackerRank - [Link](#)
- SQL (Basic) by HackerRank - [Link](#)

Academic Achievements

- Graduated as the Academic Topper, securing the highest rank among peers at Lovely Professional University - [Link](#)
- Gold Medalist in Inter-School Group Discussion Competition-Partap Public School

Extracurricular

- 5-Star Rating in Problem Solving on HackerRank with 2116 Hackos earned - [Link](#)
